

About GRID Alternatives

GRID Alternatives is a nonprofit organization that makes renewable energy technology and training accessible to underserved communities.

Start training now for a job in the solar industry

The Distance Learning Installation Basics Training (IBT) Program is a free certificate program designed to help you develop the skills solar industry employers are looking for. During the full 4 week program, you'll get vital hands-on experience installing solar in your community, online classroom instruction, and access to potential employment opportunities.

- Become eligible for two weeks of hands on training after successfully completing two weeks of online coursework using the Google Classroom platform.
 - The online classroom will include video lecture, quizzes, and discussion boards.
- One day of Capstone Online Skills testing
- Weekly office hours available with course instructors
- Daily support from instructors for online content questions.

SKILLS YOU'LL GAIN

Electrical Safety
Electrical Layout and Mounting
Conduit Bending and Installation
Electrical Wiring
Job Site Safety
Fall Protection
Array Layout
Racking Installation
Module Installation
Monitoring and Communication
First Aid and OSHA 10 Certification

Get Started

Join thousands of trainees who have gained skills in solar installation with GRID Alternatives. No prior experience is needed!
