

Jumpstart your career in manufacturing

90 hours of intensive training over 5 instructional weeks, and you may qualify for free or a reduced tuition cost!

Learn advanced manufacturing

Our curriculum covers advanced manufacturing, processes, and support systems.

Safety and forklift training

You'll get OSHA-compliant safety training and 6 hours of in-person forklift training.

Financial assistance just for you

Make sure to check with us about financial assistance – you may qualify!

Are you ready to work? Great!

When all is said and done, you'll have the skills for entry-level work in manufacturing and a CAJ certificate of completion.

Successful program graduates will have earned an OSHA ID card, Forklift card, Charles A. Jones Graduation Certificate, and will have the opportunity to earn the Certified Manufacturing Associate (CMfgA) certificate.
