

# CALIFORNIA ENERGY COMMISSION CAREER FAIR

APRIL 19, 2023 | 11:30 AM – 1:00 PM | Online Only

## The California Energy Commission is hiring!

Join us for a virtual career fair to learn more about job opportunities at the California Energy Commission. We're recruiting for a wide range of positions—not all of them require an energy background!

The Energy Commission, which is the state's primary energy policy and planning agency, is leading the state to a 100% clean energy future for all. We do so by advancing state energy policy, overseeing energy infrastructure, preparing for energy emergencies, transforming transportation, achieving energy efficiency, investing in energy innovation, and developing renewable energy.

During the fair, you'll find out about the work that we're doing, the work culture and benefits, and how to navigate the state hiring process. There will be an opportunity to ask questions of current staff and get tips and best practices from our recruiters. Candidates across the state are encouraged to apply to our jobs since we're a remote-friendly workplace.

This event is limited to 500 and the first 500 people that login will be able to join.
